Priority

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. JAPAN 2001-337420 on 11/02/2001 NO.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. It is necessary to have these rewritten in an understandable English language. The examiner has made her best attempt at understanding the claims below but corrections to the claim language must be completed by the applicant.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3693

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Carothers

(US Patent Publication US 2002/0069117 A1).

Re claim 1: Carothers discloses:

A method comprising:

Step receiving a request (by corporation or individual who is contract member requests a commerce transaction of a commodity purchase by participating in a marketplace) (see Carothers abstract, while this is shown in prior art it also is obvious physical auctions have existed for years and electronic action from well before the date of application including this step of receiving a request)

A mediation step of approving a purchaser to transact and attaching credit guarantee on the second marketplace based of the first contract. (see Carothers, "peer-to-peer" feature Figure 1, item 11 is mediation step between users 22 and member 32 & 34)

Re claim 2: Carothers discloses:

Mediation step = credit enquiry based on purchase history from first marketplace, when approved purchased is approved on second marketplace based on credit guarantee information. (see paragraph 60, line 10)

Re claim 3: Carothers discloses:

Mediation step = estimation based on plurality of items including: sending back (see paragraph 106)

Art Unit: 3693

Re claim 4: Carothers discloses:

Mediation step establishes an estimation standard, adds plus when item is satisfied and minus when item is not satisfied, determines guarantee based on total points (see paragraph 60, line 10 it is inherent in checking the credit that a method of ranking is used)

Re claim 5: Carothers discloses:

Mediation step show transaction information including the cost estimation and reply (see paragraph 60, line 1)

Re claim 6 & 7: Carothers discloses:

When commerce transaction is complete mediation step completes transaction by demanding payment from the purchaser from first marketplace and settling transaction on second marketplace (see paragraph 60, line 11)

Re claim 8: Carothers discloses:

When purchaser commits an unlawful transaction on the first marketplace mediation step discloses to second marketplace. (see Carothers, Figure 1, item 11 it is inherent in tracking the users that unlawful behavior would be known and shared)
